25X1A9a [REDACTED] Questionnaire

4

1. Ken Doyle called telling about a lost questionnaire in HEW. Kain was preparing for HEW a consolidated reply combining the views of all HEW addressees. They couldn't find the one sent to Dr. Caldwell. To find out who signed the receipt I called [REDACTED]. 25X1A9a

25X1A9a 2. Before I could present my problem he went on at great length saying he was writing 8 hours a day trying to get something for [REDACTED] to present to USIB, apparently as an interim report. In response to my question, he said they did not have many answers in yet. His impression was that the NIS had a very specialized use. BuMines, for instance, said the NIS was not much use to them. I commented this seemed^{an} interesting response to what they themselves wrote. He said again he would show me their report as soon as he had finished it.

25X1A9a 3. At the end of this chatter he advised me to call [REDACTED] (Ext. 5133), [REDACTED] secretary. She 25X1A9a was going to check the Executive Registry and find out who signed off on the questionnaire for Dr. Caldwell.

25X1A9a [REDACTED] phoned later and said it was signed for by

25X1A9a [REDACTED] on 12 Dec 62 - 3:30 p.m.]

[REDACTED] 25X1A9a
